A Northwest Orient 727 airliner was hijacked the night before Thanksgiving on a flight from Portland to Seattle.

The writer of the typewritten letter received Monday said that he "knew from the start" that he wouldn't be caught because he wore a disguise, left no fingerprints and employed other unspecified means of confounding the authorities.

The letter, the latest of several received by various newspapers, was turned over to FBI agents by the Seattle Times. The FBI headquarters in Washington refused to comment.

"I didn't rob Northwest Orient because I thought it would be romantic, heroic or any of the other euphemisms that seem to attach themselves to situations of high risks," the letter writer said.

"I am no modern day Robin Hood. Unfortunately, I do have only 14 months to live."

"My life has been one of hate, turmoil, hunger, and more hate. This seemed to be the fastest and most profitable way to gain a few last grains of peace of mind. I don't blame people for hating me for what I've done nor do I blame anybody for wanting me to be caught and punished, though this can never happen."

#### Different Sequences

He said he wore a toupee and putty makeup that would make it impossible for anyone to recognize him from a composite picture distributed by the FBI.

"I've come and gone on several airline flights and am not holed up in some obscure backwoods town," he said. "Neither am I a psychopathic killer. As a matter of fact, I've never even received a speeding ticket."

He typed at the bottom the name D. B. Cooper, the name used by the hijacker when he bought a ticket to Seattle at Portland. Underneath the name on the copy of the letter sent to The Times was this sequence of numbers and letters: "7698QA2753." The Seattle Times letter had different numbers at the bottom.

Airline crew members who saw the hijacker before he bailed out between Seattle and Reno said he appeared to be between 40 and 50, stood about 6 feet tall and weighed about 175 pounds. They said he had a receding hairline.

The description has given anxious moments to several men who bear a resemblance to the composite picture and who have parachute jumping experience.

Jiri Fencl, 38, of West Covina, said he was detained for three hours and questioned at Sacramento International Airport four days after the hijacking because of several coincidences that aroused the suspicion of sheriff's deputies.

His general appearance agrees with that of the hijacker, although he is younger. Fencl said he was sipping a martini at the bar when deputies asked to see his identification.

He had a card in his wallet showing that he had been a member of the Army's parachuting 82nd Airborne Division. A check of his driver's license showed that he had previously resided in Seattle. And he had \$800 in cash on him, money he was going to pay movers, he said. Fencl was in the process of moving from Rocklin, near Sacramento, to West Covina. He is the new manager of the Pomona National Country Club.

Phone calls to the police chief in Rocklin and to the country club in Pomona confirmed Fencl's story, but not before he had been taken to downtown Sacramento for interrogation and had his picture taken at the sheriff's headquarters.

"I went through it calmly because I knew I was innocent," Fencl said.

The FBI has given no indication of whether it has any clues to the hijacker's whereabouts; but did announce that it had released to banks and department stores the serial numbers of the bills he took. The entire \$200,000 was in \$20 bills. Identification will be difficult because the 10 thousand serial numbers are not in sequence.

Attention Officer who spoke to the skyjacker.

There is something the brown makeup does not hide. It is the warts or moles on your skyjacker's face. One near the nose, two more in the laughing lines near the mouth, also one or two others in the other side of his face. You must have noticed those. You can find the same moles or warts in Jack Linkletter's face, a master criminal who must have been back in NewPort Beach where he lives within the next four to five days. They do not have to run anywhere, just put on a tuxedo and have a dinner with some leaders of this nation.

# Peace of Mind The Reason for Jet Hijacking?

From Herald-Examiner Wire Services

A person claiming to be the man who bailed out of a 727 jet-liner with \$200,000 he extorted from Northwest Orient Airlines says he is "dying" and pulled the swashbuckling crime "to gain a few last grains of peace of mind."

In a copy of a letter sent to the New York Times yesterday, a man signing the name "D.B. Cooper" said he knew he wouldn't be caught because of his disguise, lack of fingerprints and other unspecified means used to baffle authorities.

"I am no modern day Robin Hood," the note said. "Unfortunately I do have only 14 months to live."

The letter was the latest of several received by various newspapers.

The hijacker, armed with what appeared to be a bomb, took control of the jetliner on a flight from Portland, Ore., to Seattle the evening before Thanksgiving. After receiving \$200,000 in \$20 bills at Seattle, the man ordered the plane to Mexico and bailed out somewhere between Seattle and Reno, Nev., where the plane was to land for fuel. The hijacker is believed to be a man who boarded the plane under the name "D.B. Cooper."

"I've come and gone on several airline flights and am not holed up in some obscure backwoods town," the man said in the note postmarked in Seattle last Saturday. "Neither am I a psychopathic killer. As a matter of fact, I've never even received a speeding ticket."

Claiming a life of "hate, turmoil, hunger and more hate," the writer said the hijacking and extortion "seemed to be the fastest and most profitable way to gain a few last grains of peace of mind."

Authorities said a list of serial numbers of the 10,000 \$20 bills has been released to financial institutions but added that identification will be difficult because the numbers are not in sequence. The money weighed more than 20 pounds.

#### REQUEST OF THE BUREAU

It is requested that the Latent Fingerprint Section and the FBI Laboratory conduct appropriate examinations previously requested by the Seattle Division in referenced teletype. Consideration should be given for latent fingerprint examination of the originals with comparison to other letters received by previously described newspapers, and examination to determine the composition of paper and the origin of the typewriting.

It is further requested that the originals be searched through the Anonymous Letter File.

Upon conclusion of the above requested examinations, it is requested the originals be returned to Los Angeles. Results of the examinations should be furnished to Seattle, New York, Washington Field and Los Angeles.

LA 164-497

Los Angeles will conduct no further inquiry concerning this phase of instant case as "Los Angeles Times" personnel have no idea who is responsible for preparing and sending the enclosed letter and they also have no idea as to why their particular newspaper was selected to receive such a letter.

Los Angeles will forward FD-302 regarding the interview of [redacted] to Seattle.

NARRATIVE

Shortly after 3:00 p. m., Pacific Standard Time (PST), 11/24/71, a lone white male traveling from Portland, Oregon, to Seattle, Washington, on captioned flight displayed the contents of his brief case to a stewardess indicating to her it was a bomb which would be exploded unless his demands were met. The hijacker indicated his willingness to exchange the safety of the 36 passengers and crew for \$200,000 in cash and four parachutes. He instructed that the plane circle the Seattle airport until his demands were met, at which time the plane landed. Once the money and parachutes were loaded and the plane was being refueled, the hijacker allowed the passengers and two airline stewardesses to deplane, leaving a flight crew of three males and one female and the hijacker aboard. The hijacker indicated a desire to fly to Mexico City and instructed the plane to take off flying at a low altitude and slow speed, maintaining a southerly direction. Upon demand the hijacker was instructed on lowering the rear passenger door while the aircraft was in flight. He was last seen in the aircraft by crew members at 8:05 p. m., PST, when he instructed the hostage stewardess to go forward to the first class section and close the curtains behind her. Prior to departing from passenger cabin, hijacker told stewardess the money bag was not in accordance with instructions and to cut up one of the parachutes to rewrap the money, which was done. When the aircraft landed at

LA 164-497

Reno, Nevada, for refueling, the hijacker, two parachutes, the ransom money, and the vinyl brief case had disappeared.

Investigation determined that the hijacker had purchased his ticket at the Portland Airport shortly before the plane's departure. Upon arrival at Seattle, all passengers were accounted for except a white male using the name DAN COOPER. There were no sky marshals aboard this flight and at no time did subject show any firearms..

From information available, the subject is described as white male, mid 40's, 5' 10", to 6', 170 to 180 pounds, average to well built, olive or swarthy complexion, medium smooth, dark brown or black hair parted on left side, combed back, sideburns to low ear level, dark eyes, probably black or brown. Subject wore a dark suit, white shirt, with narrow black tie. He wore dark glasses with plastic rims (possibly prescription lenses) most of the time. He had dark overcoat and was described as cool and calculating. His voice was low. He spoke intelligently and was a heavy smoker of Raleigh filter tip cigarettes.

CONSIDER THE UNKNOWN SUBJECT DANGEROUS.

Sirs,

I knew from the start that I wouldn't be caught.

I didn't rob Northwest Orient because I thought it would be romantic, heroic or any of the other euphemisms that seem to attach themselves to situations of high risk.

I'm no modern day Robin Hood. Unfortunately do have only 14 months to live.

My life has been one of hate, turmoil, hunger and more hate, this seemed to be the fastest and most profitable way to gain a few fast grains of peace of mind.

I don't blame people for hating me for what I've done nor do I blame anybody for wanting me to be caught and punished, though this can never happen.

Here are some (not all) of the things working against the authorities:

I'm not a boasting man

I left no fingerprints

I wore a toupee

I wore putty make-up

They could add or subtract from the composite a hundred times and not come up with an accurate description; and we both know it.

I've come and gone on several airline flights already and am not holed up in some obscure backwoods town. Neither am I a psycho-pathic killer. As a matter of fact I've never even received a speeding ticket.

Thank you for your attention.

## FEDERAL BUREAU OF INVESTIGATION

1.

Date of transcription 12/3/71

[redacted] California, was interviewed at the Skylark Airport at Elsinore, California, and furnished the following information:

b6  
b7c

Upon hearing the newscasts and reading the papers concerning the skyjacking of a commercial aircraft in Seattle, Washington, on November 24, 1971, and upon seeing an artist's conception of the individual who perpetrated this crime,

[redacted] advised he believes he talked to a man who closely resembles the subject during July or August 1971. Based upon his conversation with this individual he strongly suspects the man may be the person connected with this crime.

b6  
b7c

[redacted] recalled that he talked to this man for approximately ten to fifteen minutes concerning different aspects of parachute jumping and during this conversation the man asked several unusual questions, such as how would one go about jumping out of jets. [redacted] specifically recalls telling the man it could be done if the door of the aircraft opened inward or if it had a rear stairwell that could be raised and lowered. The man appeared interested and they discussed this further, to the point where air speed and drag was talked about. The fact was brought up that full flaps and lowered landing gear would supply the drag needed to exit from a jet.

b6  
b7c

The man also asked [redacted] where jump centers were located in the northwest. [redacted] told him about three locations in the State of Washington, one by the Boeing Air Field in Seattle, one on the Washington side of the Columbia River, just north of Portland, Oregon, and the other center inbetween. The man was apparently interested, but did not right down the names or locations of those centers mentioned by [redacted]

b6  
b7c

[redacted] stated it was his opinion that a person contemplating a skyjacking of a commercial aircraft would ask questions such as those purposed. He recalled at the time these questions were asked he thought it was strange as nobody else has ever purposed such questions to him.

b6  
b7c

Interviewed on 12/1/71 at Elsinore, California File # Los Angeles 161-497

by SA EDWARD A. ROMANOFF/clp

Date dictated 12/2/71

[redacted] In addition, they discussed altitude of jumps, but [redacted] who was thinking in terms of altitude records, answered in terms, implying world record altitudes, oxygen supply, time and distance of free fall.

b6  
b7C

[redacted] also recalled the individual rather vividly in his mind because he wore "Cochrane" boots. He explained that Cochrane boots are peculiar to military jumpers and are not worn by teams, clubs, sport or novice. He stated that serious jumpers wear a French boot and first time jumpers have gone with street shoes, tennis shoes, sandals and even barefooted, but the Cochrane boots were noticeable because they are not used by too many people.

b6  
b7C

He also stated he believed the man may have jumped on several occasions at the Elsinore center. If he did, there would be a registration card on file with [redacted]

b6  
b7C

[redacted] Elsinore Paricenter, Inc. He advised that each person that jumps must fill out a registration card before jumping, regardless of how much prior experience the person has had elsewhere. These cards are maintained at Elsinore Paricenter. On succeeding jumps, the cards are referred to if the individual is not known, and a receipt for jump tickets is given to the jumper with no name or further recording of the jump being made. An individual with prior experience and a license issued by the United States Parachute Association (USPA) would have the USPA license number written on the registration card.

b6  
b7C

[redacted] advised that USPA records are maintained at USPA Headquarters, care of Post Office Box 109, Monterey, California. The USPA Headquarters are on Canary Row, Monterey. He pointed out that licenses issued by the USPA necessitate that the applicant furnish a photograph of himself to USPA Headquarters before the license is issued. He was not sure if a copy of the photograph was maintained in USPA files. He noted that licenses must be renewed each year.

b6  
b7C

[redacted] was unable to recall the name of the man he talked to and was not sure if the man mentioned his name. He estimates that there have been some 8,000 to 10,000 jumpers at Elsinore since June 1971, the majority repeat jumpers who

3

LA 164-497

have made as many as six to eight jumps in a day."

[redacted] furnished the following as the description  
of the person who he talked to during July or August 1971:

b6  
b7C

Race	White
Sex	Male
Complexion	Light.
Age	40 to 42
Height	6' to 6' 1" in boots
Weight	165 to 175

EAR

On 12/3/71 [redacted]

[redacted] Elsinore Paricenter, Inc., Parachute Jumping Center located at Elsinore, California, made available registration cards of parachutists who have jumped from the center. SAs EDWARD A. ROCHA and [redacted] reviewed approximately 12,000 cards and picked out those with physical descriptive data matching that of the hijacker, including ages between 35 - 55 years, weight between 150 - 190 and height from 5'8 - 6'1. Also included were a number of younger borderline cards. Four hundred and thirty three registration cards were photographed, representing those jumpers who registered at the Elsinore center since 1969 and fit within the above descriptive limits.

b6  
b7c

[redacted] advised that registration cards prior to 1969 do not contain height data and estimated that there are approximately 18,000 cards on file prior to that year and dating back to 1957.

b6  
b7c

Copies of the artist's conception and the descriptive data of the unknown hijacker were displayed to pilots, jumpmasters, riggers, mechanics, a dispatcher and to the owners of the jump center and none of them were able to recall anyone similar at the center.

On 12/3/71, [redacted] who was at the Elsinore center for the day, furnished further information as set forth on an FD-302:

b6  
b7c

FD-302 (REV. 1-25-70)  
FEDERAL BUREAU OF INVESTIGATIONDate of transcription 12/6/711

[redacted] California, further furnished the following information:

b6  
b7c

Concerning the individual he talked to sometime during July or August 1971, who [redacted] believes could be identical to the subject that hijacked the Northwest Airlines aircraft on November 24, 1971, he recalled that the man he talked to must have been a smoker of Raleigh Cigarettes because he observed Raleigh coupons in the man's possession and remarked to him that he smoked those cigarettes with the coupons and could save enough to buy a "P. C.", meaning Para-Commander type parachute, the kind used by parachute enthusiasts and most sport jumpers.

b6  
b7c

[redacted] advised he recalled this while studying the Government memorandum containing the description of the man who hijacked the aircraft on November 24, 1971. He further advised that he doubted that the man he talked to belonged to any parachute or jumping clubs inasmuch as the average age of jumpers is between 25 to 28 years and they would not hang around with an "old guy like that", and too because most clubs in California have disbanded in the last year and a half.

b6  
b7c

Concerning clubs and their locations, [redacted] advised that they could be identified through the U. S. Parachute Association which prints a brochure with the clubs in alphabetical order by states.

[redacted] California, furnished the following information:

Concerning an individual who talked to him at Skylark Field at Elsinor, California who resembles the artist's conception of the hijacker of the Northwest aircraft in Seattle on November 24, 1971, [redacted] stated he has reviewed his thoughts and is certain he can narrow the time span to the middle or late part of August 1971 when this conversation occurred. He still believes it was strange that a person would ask questions about jumping out of jet aircraft and discuss air speed then have something like the hijacking that occurred happen a short time later. He also stated that it may be coincidental but he saw an advertisement on pages 46 and 47 of Look magazine dated August 24, 1971 showing a parachutist jumping out of a jet aircraft. He stated this may have stimulated questions by someone seeing this advertisement, however, he is still concerned since the individual he spoke to resembles the artist's conception of the hijacker. He does not know the name of the man he talked to and has not seen him since. He did state he believes he would recognize the man if he sees him again.

On 12/10/71, flight records for the month of August 1971 were photographed at the Elsinore center. These records contain the last names of the jumpers, the altitude from which they jumped, the name of the pilot and the date.

Review of these flight records on 12/14-15/71 revealed that the last names on these records matched thirty one individuals whose descriptions matched those of the hijacker and jumped from the Elsinore center during the month of August 1971. It was noted that the last name on the flight record does not mean that the jumper was the person whose registration card was pulled and photographed. It should also be pointed out that there were 29,140 parachute jumps made from the Elsinore center during the year 1970. The total number of jumps at the center for the year 1971 exceeds last year's total and will be in excess of 30,000 this year.

On 12/16/71, [redacted] picked out eight of the remaining thirty one cards stating he personally knows these individuals and they do not remotely resemble the artist's conception. The remaining twenty three cards represented individuals [redacted] does not know or the name was familiar but he could not recall what the man looked like.

b6  
b7c

On 12/20/71, [redacted] reviewed the remaining registration cards and eliminated eight more based on personal knowledge of the individual and the fact they are known to the center and do not resemble the artist's conception.

b6  
b7c

Following are the registration cards from the Elsinore center bearing the name, address and telephone number of jumpers who are unknown to [redacted] and/or the jump center:

[redacted] for the information of Seattle, on 12/16/71 [redacted] pointed out that on the flight records from Elsinore all the altitudes of jumps made were from 2,500 to 12,500 feet. He explained that sport jumpers and parachute enthusiasts all jump from altitudes in multiples of 1,000 starting from 2,500, 3,500, 4,500 etc., with the exception of 2,800 which is the competitive height for target jumping. He stated that the 10,000 foot level is reminiscent of Air Force training. He referred to Air Force pamphlet number AFP 160-10-3 entitled "Your Body in Flight" which places 10,000 feet as the maximum altitude considered safe without oxygen. [redacted] surmised that a man with Air Force experience may be the type of person that should be considered a suspect.

b6

On the other hand, he pointed out that parachutists have different classes of licenses, A, B, C and D class licenses. To hold a D license a jumper must make two night jumps as well as other qualifications. A person with a D license is an experienced jumper.

DISSEMINATION  
MEMORANDUMOO: SEATTLE  
12/21/71NORJAK

Shortly after 3:00 p.m., PST, 11/24/71, a lone white male traveling from Portland, Oregon, to Seattle, Washington, on Northwest Orient Airlines Flight 305, displayed the contents of his briefcase to a stewardess indicating to her it was a bomb which would be exploded unless his demands were met. The hijacker indicated his willingness to exchange the safety of the 36 passengers and crew for \$200,000 in cash and four parachutes. He instructed that the plane circle the Seattle Airport until his demands were met, at which time the plane landed. Once the money and parachutes were loaded and the plane was being refueled, the hijacker allowed the passengers and two airline stewardess to deplane, leaving a flight crew of three males and one female and the hijacker aboard. The hijacker indicated a desire to fly to Mexico City and instructed the plane to take off flying at a low altitude and slow speed, maintaining a southerly direction. Upon demand, the hijacker was instructed on lowering the rear passenger door while the aircraft was in flight. He was last seen in the aircraft by crew members at 8:05 p.m., PST, when he instructed the hostage stewardess to go forward to the first class section and close the curtains behind her. Prior to departing from passenger cabin, hijacker told stewardess the money bag was not in accordance with instructions and to cut up one of the parachutes to rewrap the money, which was done. When the aircraft landed at Reno, Nevada, for refueling, the hijacker, two parachutes, the ransom money, and the vinyl briefcase had disappeared.

Investigation determined that the hijacker had purchased his ticket at the Portland Airport shortly before the plane's departure. Upon arrival at Seattle, all passengers were accounted for except a white male using the name DAN COOPER. There were no sky marshals aboard this flight and at no time did subject show any firearms.

[redacted] California, was interviewed at the Skylark Airport at Elsinore, California, and furnished the following information:

Upon hearing the newscasts and reading the papers concerning the skyjacking of a commercial aircraft in Seattle, Washington, on November 24, 1971, and upon seeing an artist's conception of the individual who perpetrated this crime.

[redacted] advised he believes he talked to a man who closely resembles the subject during July or August 1971. Based upon his conversation with this individual he strongly suspects the man may be the person connected with this crime.

[redacted] recalled that he talked to this man for approximately ten to fifteen minutes concerning different aspects of parachute jumping and during this conversation the man asked several unusual questions, such as how would one go about jumping out of jets. [redacted] specifically recalls telling the man it could be done if the door of the aircraft opened inward or if it had a rear stairwell that could be raised and lowered. The man appeared interested and they discussed this further, to the point where air speed and drag was talked about. The fact was brought up that full flaps and lowered landing gear would supply the drag needed to exit from a jet.

The man also asked [redacted] where jump centers were located in the northwest. [redacted] told him about three locations in the State of Washington, one by the Boeing Air Field in Seattle, one on the Washington side of the Columbia River, just north of Portland, Oregon, and the other center inbetween. The man was apparently interested, but did not right down the names or locations of those centers mentioned by [redacted]

[redacted] stated it was his opinion that a person contemplating a skyjacking of a commercial aircraft would ask questions such as those purposed. He recalled at the time these questions were asked he thought it was strange as nobody else has ever purposed such questions to him.

[redacted] In addition, they discussed altitude of jumps, but [redacted] who was thinking in terms of altitude records, answered in terms, implying world record altitudes, oxygen supply, time and distance of free fall.

b6  
b7C

[redacted] also recalled the individual rather vividly in his mind because he wore "Cochrane" boots. He explained that Cochrane boots are peculiar to military jumpers and are not worn by teams, clubs, sport or novice. He stated that serious jumpers wear a French boot and first time jumpers have gone with street shoes, tennis shoes, sandals and even barefooted, but the Cochrane boots were noticeable because they are not used by too many people.

b6  
b7C

He also stated he believed the man may have jumped on several occasions at the Elsinore center. If he did, there would be a registration card on file with [redacted]

b6  
b7C

[redacted] Elsinore Paricenter, Inc. He advised that each person that jumps must fill out a registration card before jumping, regardless of how much prior experience the person has had elsewhere. These cards are maintained at Elsinore Paricenter. On succeeding jumps, the cards are referred to if the individual is not known, and a receipt for jump tickets is given to the jumper with no name or further recording of the jump being made. An individual with prior experience and a license issued by the United States Parachute Association (USPA) would have the USPA license number written on the registration card.

b6  
b7C

[redacted] advised that USPA records are maintained at USPA Headquarters, care of Post Office Box 109, Monterey, California. The USPA Headquarters are on Canary Row, Monterey. He pointed out that licenses issued by the USPA necessitate that the applicant furnish a photograph of himself to USPA Headquarters before the license is issued. He was not sure if a copy of the photograph was maintained in USPA files. He noted that licenses must be renewed each year.

b6  
b7C

[redacted] was unable to recall the name of the man he talked to and was not sure if the man mentioned his name. He estimates that there have been some 8,000 to 10,000 jumpers at Elsinore since June 1971, the majority repeat jumpers who

3

have made as many as six to eight jumps in a day.

Sex	Male
Complexion	Light
Age	40 to 42

[redacted] California, furnished the following information:

Concerning the individual he talked to sometime during July or August 1971, who [redacted] believes could be identical to the subject that hijacked the Northwest Airlines aircraft on November 24, 1971, he recalled that the man he talked to must have been a smoker of Raleigh Cigarettes because he observed Raleigh coupons in the man's possession and remarked to him that he smoked those cigarettes with the coupons and could save enough to buy a "P. C.", meaning Para-Commander type parachute, the kind used by parachute enthusiasts and most sport jumpers.

[redacted] advised he recalled this while studying the Government memorandum containing the description of the man who hijacked the aircraft on November 24, 1971. He further advised that he doubted that the man he talked to belonged to any parachute or jumping clubs inasmuch as the average age of jumpers is between 25 to 28 years and they would not hang around with an "old guy like that", and too because most clubs in California have disbanded in the last year and a half.

Concerning clubs and their locations, [redacted] advised that they could be identified through the U. S. Parachute Association which prints a brochure with the clubs in alphabetical order by states.

Concerning an individual who talked to him at Skylark Field at Elsinor, California who resembles the artist's conception of the hijacker of the Northwest aircraft in Seattle on November 24, 1971, [redacted] stated he has reviewed his thoughts and is certain he can narrow the time span to the middle or late part of August 1971 when this conversation occurred. He still believes it was strange that a person would ask questions about jumping out of jet aircraft and discuss air speed then have something like the hijacking that occurred happen a short time later. He also stated that it may be coincidental but he saw an advertisement on pages 46 and 47 of Look magazine dated August 24, 1971 showing a parachutist jumping out of a jet aircraft. He stated this may have stimulated questions by someone seeing this advertisement, however, he is still concerned since the individual he spoke to resembles the artist's conception of the hijacker. He does not know the name of the man he talked to and has not seen him since. He did state he believes he would recognize the man if he sees him again.

**CLUE TO HIJACKER**

# Please Check Your \$20 Bills, FBI Asks

BY DARYL LEMBKE

Times Staff Writer

**SEATTLE** — If you've got any \$20 bills lost from Christmas shopping, the FBI wishes you'd take a look at them.

There's an off chance they might prove a clue to the whereabouts of "D.B. Cooper," the fellow who literally jumped at the opportunity to get away with \$200,000.

That was the name a man gave when he purchased a ticket in Portland on a Seattle-bound Northwest Orient airliner last Nov. 24.

He then hijacked the airliner en route to Seattle by shooting a stewardess which he said was connected to a bomb-making letter. He forced the airline to give him \$200,000 in \$20 bills and four parachutes when the plane landed in Seattle. He then made the plane take off again and he apparently parachuted out of the 727 jet between Seattle and Reno, taking with him the loot.

Although he could have died in the jump, most people seem to think that "Cooper" got away with the money.

Come even hope that he did. He has become something of a folk hero. A Seattle firm is even selling "D.B. Cooper" T-shirts, showing a man sailing a sailboat with the greenback as

part of a robbery is still a mystery, the FBI which has the serial numbers of the stolen money and has published them in a 34-page booklet circulated among financial institutions in the West.

To have come from the 20-pound package of \$20 bills which the hijacker took, the bill must carry both the correct number and the date of the design series.

Twenty in the hijack package are dated 1963, 1963-A and 1963. The date of the series is found at the bottom of the bill and just to the right of the center.

The first letter with the serial number indicates in which of the 12 federal reserve districts the bill is issued. The great majority of the bills taken by the hijacker came from the 12th Federal Reserve District, headquartered in San Francisco and lettered "L" on the stolen bills, but the other 11 districts lettered A through K are also represented. Numbers on the list are in sequence but skip from smaller to much larger ones.

Result of examination:

Q23 through Q28 could not be associated with any of the specimens represented in the Anonymous Letter File. Copies of Q23 through Q28 have been added to this file for future reference.

No watermarks, indented writing or other features were found on Q23 through Q28 which would be of value in determining the source of these specimens. It could not be determined whether the paper on which the questioned letters were prepared originated from Government stock.

The typewriting on Q23 through Q28 most closely matches Laboratory standard for a pica style of type used on Singer electric typewriters. Similar styles of pica type are found on Smith-Corona typewriters.

It was not determined whether the Christmas stamps on Q23, Q25 and Q27 were originally attached, because of a lack of significant defects in the torn edges of these stamps.

Q24, Q26 and Q28 are carbon copies of the same original letter with the exception of the numbers at the bottom of each of these specimens.

The submitted evidence was photographed and will be returned separately.

[redacted] "Los Angeles Times" newspaper, 202 West First Street, furnished the following information concerning a letter that was received at the "Los Angeles Times" on December 13, 1971, pertaining to the skyjack and payoff that took place involving the Northwest Orient Airlines:

b6  
b7c

The letter was received at the "Los Angeles Times" Office during the early morning of December 13, 1971. [redacted] explained that letters received from the Post Office are distributed from the "Los Angeles Times" mail room. He said the letter in this situation was eventually routed from the "Times" mail room to the [redacted] for the "Los Angeles Times". [redacted] said that neither he nor anyone associated with his newspaper has any idea who is responsible for preparing and sending the letter to the newspaper. No one has any idea why the "Los Angeles Times" newspaper was selected to receive the letter. No one associated with the "Los Angeles Times" has any idea what the significance of the number that appears on the last line of the letter which is located opposite to the name "Los Angeles Times".

Sirs.

I knew from the start that I wouldn't be caught.

I didn't rob Northwest Orient because I thought it would be romantic, heroic or any of the other euphemisms that seem to attach themselves to situations of high risk.

I'm no modern day Robin Hood. Unfortunately do have only 14 months to live.

My life has been one of hate, turmoil, hunger and more hate, this seemed to be the fastest and most profitable way to gain a few fast grains of peace of mind.

I don't blame people for hating me for what I've done nor do I blame anybody for wanting me to be caught and punished, though this can never happen.

Here are some (not all) of the things working against the authorities:

I'm not a boasting man

I left no fingerprints

I wore a toupee

I wore putty make-up

They could add or subtract from the composite a hundred times and not come up with an accurate description; and we both know it.

I've come and gone on several airline flights already and am not holed up in some obscure backwoods town. Neither am I a psycho-pathic killer. As a matter of fact I've never even received a speeding ticket.

Thank you for your attention.

CLUE TO HIJACKER

# Please Check Your \$20 Bills, FBI Asks

BY DARYL LEMIEKE

*Times Staff Writer*

**SEATTLE.** If you've got any \$20 bills left from Christmas shopping, the FBI wishes you'd take a look at them.

There's an off chance they might provide a clue as to the whereabouts of "D.B. Cooper," the fellow who literally jumped at the opportunity to get away with \$200,000.

That was the name a man gave when he purchased a ticket in Portland on a Seattle-bound Northwest Orient airliner last Nov. 24.

He then hijacked the airliner en route to Seattle by showing a stewardess wires which he said were connected to a bomb in his briefcase. He forced the airline to give him \$200,000 in \$20 bills and four parachutes, whereupon the plane landed in Seattle. He then made the crew take off again and he apparently parachuted out of the 727 jet between Seattle and Reno, taking with him the loot.

Although he could have died in the jump, most people seem to think that "Cooper" got away with the money.

Some even hope that he did. He has become something of a folk hero. A Seattle firm is even selling "D.B. Cooper" T-shirts showing a man floating to earth with the greenbacks.

But a robbery is still a robbery to the FBI, which has the serial numbers of the stolen money and has published them in a 34-page booklet circulated among financial institutions in the West.

To have come from the 20-pound package of \$20 bills which the hijacker took, the bill must carry both the correct number and the date of the design series.

Twentyies in the hijack package are dated 1934, 1950, 1963 A and 1969. The date of the series is found at the bottom of the bill and just to the right of the center.

The first letter with the serial number indicates in which of the 12 federal reserve districts the bill is issued. The great majority of the bills taken by the hijacker came from the 12th Federal Reserve District, headquartered in San Francisco and lettered "L" on the stolen bills, but the other 11 districts lettered A through K are also represented. Numbers on the list are in sequence but skip from smaller to much larger digits.

Random numbers from the list are as follows:
